

## HAZARD AND SAFETY EQUIPMENT FOR “EXPLORER”

Please be aware of the following hazards on the boat.

- Take care when getting on and off the boat – hold onto rails where you can
- Two raised steps at rear of boat
- Be aware of head room when moving forward of galley area and/or down into front bunk room and visa versa
- Watch for split floor levels in lounge area
- Dining table is not secured to floor
- Take extra care when climbing up or down the stairs from the upper deck
- When using gas hobs in galley ensure curtain is well away from any flame
- Watch your head when getting in and out of double bed with overhanging shelf above it
- Excessive alcohol can lead to accidents

Please observe where safety equipment is stored.

- Fire Extinguishers, 1 dry powder in galley area on post, and 1 CO2 outside near engine.
- 1 fire bucket is located in outside cupboard opposite BBQ
- First aid kit located in vanity unit in bathroom (please record any items used)
- Life jackets are located throughout the boat, (some in bunk room (cupboard and shelf), some in lounge (cupboard below sliding door/window), and some upstairs under steering wheel area. The bright red ones are children’s sizes.

Kama Holdings, trading as The Taupo Explorer accepts no responsibility for any falls or injuries incurred whilst on the boat.

Please take care.
